

Swedish Vocabulary Crosswords for English Speakers - CEFR A1 to C1.: Mixed English–Swedish Clues (the CEFR Swedish A1–C1 series for English Speakers)

Serious Swedish revision for the highest level — with bilingual mixed-grid crosswords that train two-way recall.

If you're preparing for CEFR C1 / Swedex (the highest Swedex level), you need more than recognition. You need the ability to retrieve the right word quickly, spell it correctly (Å/Ä/Ö included), and switch confidently between Swedish and English. Swedish Vocabulary Crosswords for English Speakers – CEFR A1 to C1 is a collection of 100 standard crosswords built from a wide pool of vocabulary across the full A1–C1 range. The puzzles are not graded from easy to difficult: vocabulary is mixed throughout, reflecting real advanced revision where you must handle both everyday words and higher-level terms reliably.

The Crossmots mixed-grid method

Every crossword contains both Swedish and English answers in the same grid, and the clues always appear in the other language:

- English clues → Swedish answers
- Swedish clues → English answers

This forces genuine two-way recall and makes vocabulary study active rather than passive. When a clue could allow more than one synonym or word class, the crossword itself provides the extra guidance: answer length and crossing letters help confirm the intended solution.

Ideal for

- Learners targeting CEFR C1 / Swedex
- Broad revision across the full A1–C1 vocabulary range
- Anyone who prefers “learning by doing” over memorizing lists

Transparency note: This is an independent learning aid. It is not an official exam word list and is not affiliated with Swedex.
